APPOMATTOX HARDWARE COMPANY

Let the Wild sefollowing program Saturday about forty present and orening, May 7th, from 7 to 10 body seemed to have Cats Alone!

Every now and then somebody calls to ask for our opinion of some get-richquick scheme in which heor she has been asked to invest. For several years past the country has been flooded with bonanzas (?), and many people, to their sorrow, have put money into them.

Occasionally some good but misguided man who has already bought a "wild cat" stock, calls on us seeking information. We like always to be encouraging, but on such occasions we feel very much as we imagine the doctor does who has to tell his patient the worst.

It is for the reason that there are very bad as well as very good securities that we advise prospective investors in any issue to investigate it thoroughly.
